

Practical Strategies for Safe and Sustainable Dam Management

Dam Safety Training for Municipal & Regional Dam Owners

COURSE DATE: THURSDAY, OCTOBER 29TH, 2026

Registration & Networking: 7:45 – 8:15 AM

Course Start Time: 8:30

Key Topics:

- Dam Safety Reviews: requirements, best practices, and common pitfalls
- Understanding dam owner responsibilities under the B.C. Dam Safety Regulation
- Surveillance and Maintenance for vegetation and rodent management
- Digital recordkeeping and management tools
- Value of standardized training for operations and maintenance staff
- Budgeting and planning for future dam safety investments
- Networking, partnerships, and shared-service opportunities
- Lessons learned from historical dam incidents in British Columbia

Learning Outcome:

By the end of this workshop, participants will better understand how to build a practical, proactive, and resilient dam safety program that supports regulatory compliance, informed decision-making, and long-term stewardship of their dam assets.
